OBJECTIVE

Highly motivated Web and Mobile Developer eager to apply technical skills in a practical setting, where I can contribute to innovative projects. Possessing strong communication skills and an ability to quickly adapt and master new tools and technologies necessary, seeking an entry-level role to build impactful software systems that align with company goals.

PROJECTS

PGX Group Profile Webpage | Front-End Developer

- Developed a fully responsive landing page using HTML, CSS, JavaScript for PGX Group to showcase their enterprise portfolio, implementing smooth interface animations to give the site a modern look and feel while maintaining strict content readability across all device sizes.

TrackTasty (Capstone Project) | Lead Developer

- Developed a cross-platform mobile application using Flutter and Firebase that makes macro tracking easier for users through AI-powered food recognition, chatbot that gives nutrition guidance, and provides body composition forecasting based on food logs input of users.

EXPERIENCE

PGX Group Inc. | Software Developer Intern

2026

- Contribute to the development of the company's website and mobile application projects, assisting in front-end and back-end implementation.

Yield Guild Games | Game Tester

2024 – 2025

- Reviewed gameplay mechanics, balance, and overall design, providing useful feedback to the development team for better player experience while applying knowledge of current gaming trends.
